INDEX TO VOL. XLVII

Electrical Review

NEW YORK

JULY 1 TO DECEMBER 30, 1905

INDEX TO VOLUME XLVII

ELECTRICAL REVIEW

JULY 1 TO DECEMBER 30, 1905

Articles marked * are illustrated; (E) indicates "Editorial"; (P) indicates notes under "Recent Electrical Patents"; (R) indicates "Reviews of Current Engineering Literature."

A

Absorption of Rœntgen rays (E).... 298
Accelerometer, an electric (E)..... 881
Accelerometer, an electric, by R. B. Owens* 908
"Accelerometer," the..... 380
Accidents with electrical machinery (R) 209
Acetylene blowpipe, an..... 305
Acetylene in Greece..... 795
Air-gap reluctance, an experimental determination of, by Charles H. Smoot* 428
Albert medal for Lord Rayleigh..... 190
Alchemist, a poor outlook for the (E). 115
Alexander M. Bell dead..... 243
Alexandria-Ramleh electric railway, the, by Enrico Bignami*..... 905
Alps, water power in the..... 736
Alternate-current machinery, induction alternators, by William Stanley and G. Faccioli*..... 130
Alternating-current electrolysis (E).. 569
Alternating-current motor (P)*..... 748
Alternating-current motors on lighting circuits (E)..... 299
Alternating-current rectifier (P)*..... 828
Alternating-current system adopted by the New York, New Haven & Hartford Railroad (E)..... 532
Alternator, large gas-engine-driven.... 761
Alternators, the testing of (R)..... 248
Aluminum rectifier, the influence of the electrolyte on the operation of the (R) 356
Aluminum, the electroplating of, by A. G. Giroux..... 580
American Electrochemical Society.... 867
American engineers in London..... 169
American Institute of Electrical Engineers.....513, 619, 710, 856, 907, 978
American Institute of Electrical Engineers, 201st meeting of the.... 856
American Locomotive Company directors, new..... 620
American telephone and telegraph appointments 553
Amerika, the banquet on the new liner. 692
Amerika, the new ocean liner..... 672
Announcement—the commercial side of central station development (E) 459
Annual meeting and dinner of the Electrical Trades Society, of New York. 918
Apparatus for finishing electric lamps or bulbs (P)*..... 207
Application of electric light to revolver (P)*..... 297
Apprentices in the electrical trade.... 197
Arc lamp-hanger and cutout (P)*..... 444
Arc, the residual electromotive force of the carbon..... 398
Arrester, a new type of horn lightning. 430
Artificial diamonds (R)..... 447
Arizona, telephone engineering in (R) 794
Armature for electrical machines (P)* 986
Asbestos, its occurrence, exploitations, and uses..... 938
Atlanta Northern Railway*..... 440
Atlantic cable laid, a new..... 599
Atlantic cable, the Commercial Cable Company's fifth..... 576
Atmosphere, exploring the (E)..... 38
Atmospheric electricity, utilization of (R)* 948
Atomic disintegration and commercial standards (E)..... 1001
Attachment plug and receptacle (P)*.. 601
Audiphone instruction apparatus (P)* 60
Australia, long-distance telegraphy in, by T. Howard*..... 822
Australia, report on telephone and telegraph development in..... 943
Austrian electric railways (R)..... 356
Automatic block signals under unfavorable conditions, the performance of. 190
Automatic control, electrical means for (E) 222
Automatic refrigeration with electric power, by J. C. Chamberlain*.... 106
Automatic synchronizing of generators and rotaries, by Paul MacGahan.. 53
Automobile exhibition in New York city 427
Automobiles (E)..... 809
Automobiles, dustless (E)..... 496

B

Banquet on the new liner Amerika, the 692
Batteries, recharging primary (E).... 617
Batteries, the general care of storage (R) 830
Battery resistance, by Mance's method (R) 639
Base-making machine (P)*..... 317
Belfast (Ireland) city tramways, the (R) 984
Bell, Alexander M., dead..... 243
Berlin, a suspended electric railway for 867
Berlin's telephone system..... 625
Blowpipe, an acetylene..... 305
Book Reviews.
American Street Railway Investments 129
Business of Municipalities and Private Corporations compared, the. Francisco 707
Commercial Management of Engineering Works, the..... 348
Copper Handbook, the..... 166
Electricians' Handy Book. Sloane. 348
Fowler's Electrical Engineer's Year Book and Directory of Light, Power and Traction Stations 812
Fowler's Mechanical Engineer's Pocket-Book..... 812
High-Tension Power Transmission. 749
Honorable Peter White, the. Williams 349
Book Reviews—*Continued.*
La Separation Electromagnetique et Electrostatique des Minerals. Gorda 312
Lecons d'Electrotechnique Generale. Janet 749
Modern Lightning Conductors. Hedges 707
Power Plant Papers. Lucke.... 749
Practical alternating currents and alternating-current testing. Smith 348
Principles of Electric Power for Mechanical Engineers. Bate.... 812
Steam Engineering. Pullen..... 348
Steam Pipes, Their Design and Construction. Booth 59
Traité Pratique d'Electrochimie. Lorenz 784
Borinage, the street railway system of the, by Dr. Alfred Gradenwitz*.... 467
Borinage, the street railway system of the 620
Ball-bearings, the design and operation of (A)..... 283
Braun cathode ray tube, some applications of the (R)..... 134
Braun tube for producing cathode rays, having a low velocity, arrangement of a..... 820
Brewery, electric power in a..... 545
British Association in South Africa, meeting of the..... 266
Brush discharges, chemical and industrial applications of (R)..... 446
Buffet and parlor car, a handsome* 793
Bulb for incandescent electric lamp (P)* 207
Burying of the wires, the (E)..... 808

C

Cable station, the isolated Midway Islands 480
Cable to China and Japan, new..... 477
Cable to Iceland, the submarine..... 382
Calcium carbide industry in France, the 161
Calcutta electric tramways (R)..... 208
Calcutta tramway system (R)..... 63
Canadian water powers..... 81
Canals, and what to do with them, the value of (R)..... 403
Candle-power of lighthouses, the (E).. 377
Candle-power ratings (E)..... 531
Candle-power, the calculation of mean spherical (R)..... 674
Capacity with temperature, the variation of a (R)..... 402
Carbon, non-conducting (E)..... 1001
Carbon filament, a new, by John W. Howell* 46
Carbon filament lamps, improvements in 276
Carbon filament, the metallized (E)... 38
Car equipment, three-phase, direct-current 828
Car or locomotive, electric (P)*..... 444
Cars, subway (E)..... 377

Casting wagon, an electrically operated (R) 483
Cast-iron magnets (E)..... 77
Central station and the coming autumn, the (E)..... 335
Central station development, the commercial side of—announcement (E) 459
Chase, B. L., line construction..... 399
Chemical and industrial applications of brush discharges (R)..... 446
Chemistry of electrochemistry, the, by Wilder D. Bancroft..... 536
Chicago electrical show, the..... 513, 747, 784, 811, 844, 968
Chicago street railway companies..... 977
China and Japan, new cable to..... 477
China, electrical opportunities in (E). 689
China, electrical supplies needed in.. 743
China, the American invasion of, by George W. K. Hartman*..... 669
Choke coils (R)..... 674
Circuit-breaker (P)*..... 355
Circuit closer (P)*..... 244
Circuit controller (P)*.....601, 749
Citizens' Telephone Company..... 545
City of New York, report of the commission on electric lighting for the 857
Civil service examinations for New York state service..... 266
Clambake, the Olympic Club..... 451
Clocks controlled by wireless telegraphy 591
Clyde Valley Electrical Power Company, Limited, the*..... 191
Coal-conveying plant, a modern (R)*.. 248
Coast defence, electricity in the (E). 150, 155
Coherer (P)*..... 600
Combination electric rail (P)*..... 910
Combined telephony and telegraphy, by Samuel G. McMeen*..... 57
Commercial Cable Company's fifth Atlantic cable..... 576
Commission on electric lighting for the city of New York, report of the (E) 37
Condenser, a new..... 837
Condensers for the continuous operation of three-phase motors, the use of (R)..... 830
Conductivity of copper, the..... 280
Conductivity of the air at sea, the special electrical..... 636
Conductors, means for securing electric (P)*..... 637
Conductors, machine for insulating electrical (P)*..... 481
Conference at Detroit, a great..... 154
Conference on smoke abatement..... 696
Connection switch member (P)*..... 637
Consolidations, proposed..... 656
Contacts, process for making (P)*.... 865
Control apparatus (P)*..... 673
Controller, electrical (P)*..... 170
Control of carbons in arc lamps of the inclined carbon type, the (R).... 318
Convention city, the small town as a (E)..... 495
Convention dates of the National Electric Light Association..... 44
Conventions of street railway associations.....139, 464
Convention season, the (E)..... 1
Convention, the Institute (E)..... 1

CONVENTIONS.
Association of Edison Illuminating Companies.....389, 480
American Association of Street Railway Claim Agents..... 518
American Electrochemical Society, 44, 205, 383, 476, 508
American Institute of Electrical Engineers..... 20
American Railway Mechanical and Electrical Association....169, 464, 515
American Society for Testing Materials 82
American Society of Mechanical Engineers.....791, 932
American Street Railway Association, the.....243, 430, 464, 517
Canadian Electrical Association... 18
Canadian Independent Telephone Association 488
Colorado Electric Light, Power and Railway Association.....135, 464, 545
German Society of Electrochemists 98
Illinois Electrical Contractors' Association 15
Illinois Independent Telephone Association 324
Illinois State Electric Association, 507, 620
Independent Telephone Companies, convention of..... 823
Independent Telephone Association of Southern Indiana..... 597
Indiana Telephone Association.... 168
International Association of Municipal Electricians.....204, 352
Kansas Gas, Water, Electric Light and Street Railway Association. 594
Master Car Builders' Association.. 15
Missouri Independent Telephone Association 576
National Electrical Contractors' Association 12, 16, 80, 135, 166
National Electrical Trades Association 16
National Electric Light Association 736
National-Interstate Telephone Association 4, 196
New York State Electrical Contractors' Association..... 56
New York State Independent Telephone Association..... 17
Ohio Electric Light Association.213, 311
Ohio Society of Mechanical, Electrical and Steam Engineers...472, 793
Old-Time Telegraphers and Historical Association and Military Telegraph Corps.....324, 336
Pacific Coast Engineering Congress, the..... 204
Railway Signal Association, the.. 324, 477, 553, 656, 1028
Society for the Promotion of Engineering Education..... 100
Southeastern Iowa Independent Telephone Association..... 671
Southern Indiana, Independent Telephone Association of..... 430
Street Railway Accountants' Association.....464, 518, 545
Street Railway Association of the State of New York..... 44
Underwriters' National Electrical Association, annual meeting of the 856

CONVENTIONS—*Continued.*
Vermont & New Hampshire Independent Telephone Association.. 823
Westinghouse district managers' meeting* 835
Wisconsin, the Independent Telephone Association of..... 818
Converted gas-electric lighting station, a* 746
Cooking, electric (E)..... 651
Copper deposits of Missouri, the..... 302
Copper market in May and June, the.. 56
Copper ores, new methods in the metallurgical treatment of (R)..... 483
Copper, some notes on the rapid electrodeposition of, by Sherard Cowper-Coles 549
Copper, the conductivity of..... 280
Copper, the need for (E)..... 723
Cost accounting system, the beginning of a (A)..... 949
Cost of irrigation by electrically driven pumps from transmission services, on the, by W. W. Wheeler..... 465
Crane, a large electric (R)..... 674
Crane, a large electric..... 864
Current limiters..... 127
Curtis steam turbines in Japan..... 247
Cutlers Company, the annual banquet of the..... 607
Cuttriss, death of Charles..... 812

D

Damping of oscillating currents containing a condenser and an interrupter (R)..... 102
De Forest European patents..... 594
Demonstration in court, an electrical (E) 843
Design and quality in glassware for lighting purposes..... 560
Despatcher, the first train..... 901
Destructors and their by-products, by F. L. Watson..... 969
Detroit, Mich., the municipal lighting plant at..... 359
Development of the Postal Telegraph-Cable Company, the, by Charles P. Bruch*..... 400
Device for increasing adhesion between wheels and rails (P)*..... 207
Device for railways, a new..... 664
Diamonds, artificial (R)..... 447
Dimorphous distribution of electrical energy (R)..... 795
Direct-current railway operation, higher voltages for (E)..... 963
Direct currents power transmission by (E) 569
Direct-current turbo-generator of the Maschinenbau A. G. Union, a.... 818
Discharges showing the dark flash, electrical* 671
Dissimilar electrodes, valve cells and metal vegetation (R)..... 357
Dissipating fog and smoke, apparatus for (R)..... 674
Distribution of power, the, by W. E. Ayrton 577
Diversity factor, the (E)..... 113
Dublin, electric supply of..... 190
Dynamo, a novel type of (R)..... 62
Dynamo, electric machine (P)*..... 1020
Dynamo-electric machine (P)*.....207, 865
Dynamometric brake, a (R)..... 984

NOV 6 - 1906

38716

E

Edinburgh, Scotland, municipal ownership in..... 864
Efficiencies, by James Swinburne*.... 1009
Elective system in technical education, the (E)..... 965
Electric arc in a vacuum, the (R)..... 102
Electric fields, comparison of..... 302
Electric lamps for a temporary display, extensive use of..... 745
Electric light for parks (E)..... 115
Electric lighting cheaper than gas for the home (E)..... 689
Electric plant of the city of Thun, Switzerland, by B. F. Hirschauer*. 973
Electric power arrangements for shops, the selection of..... 451
Electric power in sewage disposal plants of the Birmingham, Tame and Rea district drainage board (R)..... 913
Electric pumping plants (R)..... 318
Electric pumping, the economy of (E). 185
Electric railway development (E).... 221
Electric railway equipment, by W. B. Potter 664
Electric railway system of the future, the (E)..... 149
Electric sign (P)*..... 317
Electric signs (E)..... 334
Electric traction for the transportation of mail, the use of (R)..... 446
Electric tramways in Viga..... 1021
Electric welding, apparatus for (P)*.. 244
Electrical committee of the National Board of Fire Underwriters..... 932
Electrical control (R)..... 866
Electrical device, a new (E)..... 928
Electrical discharges showing the dark flash* 671
Electrical engineer in heavy traction work, the..... 117
Electrical Development Company, of Ontario, the..... 116
Electrical exhibition, the international 136
Electrical inspectors' meeting..... 579
Electrical growth, an instance of (E).. 185
Electrical hazard from the underwriters' viewpoint..... 196
Electrical mining notes, Sydney F. Walker.....55, 344, 581
Electrical nature of matter and radioactivity, the, by Harry C. Jones, 378, 426, 462, 498, 534, 570, 618, 654, 690, 726, 774, 810, 846, 882, 930, 966, 1002
Electrical notes from Europe, by C. L. Durand.....128, 478, 598, 744, 902
Electrical power for farm work (E)... 615
Electrical Trades Exposition Company's first annual electrical show, the.... 713
Electrically heated handhold (P)*..... 206
Electricity and the fire risk (E)..... 725
Electricity in celebrating the Fourth.. 164
Electricity in its application to everyday life..... 481
Electricity in a malleable iron foundry, by H. P. Kernochan..... 45
Electricity in the chemical laboratory, by H. S. Knowlton..... 54
Electricity in the coast defence*..... 155
Electricity in the modern drama..... 950
Electricity, irrigating by (E)..... 497
Electricity on shipboard (E)..... 653
Electrification of the Long Island Railroad, the*..... 701
Electrification of the Michigan Central Railroad 117
Electrification of the New York suburban district of the New York Central & Hudson River Railroad* 730
Electrification of the Pennsylvania Railroad 983
Electrolysis, alternating-current (E)... 569
Electrolysis of underground pipes, guarding against, by Putnam A. Bates 737
Electrolytic copper (R)..... 985
Electrolytic interrupter, a new form of (R) 172
Electrolytic rectifiers for telephone stations 790
Electromagnet (P)*..... 60
Electromagnet for remote control, the (E) 423
Electrometallurgy of iron and steel, recent advances in the, by R. S. Hutton 306
Electrometer for the stage of a microscope, an (R)..... 830
Electroplating of aluminum, the, by A. G. Giroux..... 580
Electrostatic machine, efficiency of the (E) 149
Electrotherapeutics (E)..... 965
Electrotherapeutics, some new lines in 1019
Elevators, electric, by E. R. Carichoff.. 380
Elks carnival at Buffalo, N. Y., the electrical features of the*..... 116
Employer and employé, improving the conditions of (E)..... 881
Enduring national bankruptcy system, the inherent ally of commerce and credit, an..... 203
Energy used in driving a small engineering works, the actual cost of (R) 482
Engineering Building, report of committee on the*..... 945
Engineering education for everybody (E) 376
Engineering, illuminating (E)..... 297
Engineering of London traffic, the (R) 713
Engineering works, the actual cost of energy used in driving a small (R) 482
Engineers, commercial training for (R) 402
Engineers, the Ohio Society of Mechanical, Electrical and Steam... 793
Engines, some recent developments in* 750
England, electric power schemes in (E) 567
England, electrical development in.... 319
English 220-volt lamp, the..... 339
Equipment of the New York, New Haven & Hartford Railroad, the electrical 801
Europe, electrical notes from, by C. L. Durand.....128, 478, 598, 744, 902
Europe, improvement in the electrical industries in (E)..... 423
Europe, the electrical industry in..... 320
Everybody, engineering education for (E)..... 376
Evolution and radioactivity (E)..... 333
Evolution of hydrogen from the cathode, and its absorption by the anode, in gases, the (R)..... 173
Evolution of inanimate matter, by G. H. Darwin..... 336
Exhibition of the American Street Railway Manufacturers' Association, the*..... 519
Experiments with Hertz oscillators, note on some (R)..... 482
Exploring the atmosphere (E)..... 38
Exposition, Chicago electrical..... 513

F

Faraday Society, the.....152, 826
Farm, electricity on the (E)..... 689
Farming with an automobile, the cost of 139
Federal Sugar Refining Company, Yonkers, N. Y., the lighting plant of the* 308
Fence, electrically energized (P)*..... 281
Ferro-Alloys (R)..... 554
Film-coated wire (P)*..... 61
Fire-alarm telegraph service in Greater New York, the*..... 572
Fire-alarm telegraphs in New York city, the (E)..... 137
Fire-alarm telegraph system of the city of New York, the (E)..... 567
Fire at Niagara power-house..... 443
Firefly, the light of the..... 120
Fire hazard, the electrical (E)..... 880
Fires from electrical causes, by C. B. Roulet 276
Fixation of atmospheric nitrogen, the (R)* 1023
Fixation of Nitrogen 10
Fog dispersion (E)..... 651
Foreign trade of the United States, extending the..... 317
Foundation stone of the new building of the Engineers' Club laid, the.. 1028
France, the telephone question in (E). 461
Franklin anniversary, the..... 336
French arc lamp, a new (R)..... 757
French 28,000-volt transmission, a (R) 248
Frome, England, electricity works, the. 390
Fuel briquetting plant in Japan..... 67
Furnace, a useful electric (E)..... 187
Fuse, electric (P)*..... 600
Fuse terminal (P)*..... 910
Fusion of glass by electricity..... 445
Future, the electric railway system of the (E)..... 149

G

Galbraith iron and steel furnace, the (R) 282
Garbage, electricity from..... 972
Garbage, tramway for removing..... 389
Gas engine as an auxiliary in transmission, the (E)..... 334
Gas-engine-driven electric station, performance of a (E)..... 221
Gas turbine, a new (R)..... 554
Gas turbine problem, the (E)..... 845
Gas *versus* electricity for distributed lighting (E)..... 39
Gear casing for electric railway motors (P)*..... 444
General education for engineers (R).. 357
Generator, a new..... 322
Generators and motors, ventilating arrangements of electric..... 403
German electrical products and the new treaties 44
German electrical systems (E)..... 263
German Society of Electrochemists, report of the annual meeting of the, by John B. C. Kershaw..... 98
German train-lighting systems, successive improvements in (R)..... 356
Germany, wireless telegraphy in..... 594

Getting new business by advertising, John F. Gilchrist, C. W. Lee, Arthur Williams, James I. Ayer..... 11
Glassware for lighting purposes, design and quality of..... 560
Government ownership, an effect of (E)..... 929
Governmental wireless telegraphy on the Pacific coast, by Waldon Fawcett*..... 197
Governor for dynamos (P)*..... 481
Gramme, monument to..... 535
Grand Central station of the New York Central & Hudson River Railroad, improvement of the*..... 778
Graphic calculation of dynamo shunt rheostats, the (R)..... 984
Great Britain, the wireless telegraph industry in (E)..... 263
Greater New York, the fire-alarm telegraph service in*..... 572
Grease, acetylene in..... 795
Growth of the electric light and power industry, the (E)..... 532
Gutta-percha and rubber trade of Singapore..... 92

H

Handling of electrical instruments in relation to their accuracy, the, by H. B. Taylor..... 241
Harland & Wolff's shipbuilding works, the power plant at*..... 41
Hartford Electric Light Company, the new station of the*..... 391
Harvard-Massachusetts Institute of Technology Alliance, the final action on the..... 619
Harvard-Tech merger suit..... 443
Hazards, substation fire (E)..... 376
Heat engines, a new principle for (E). 927
Heater, electrical (P)*..... 281
Heating electric (E)..... 928
Hertz oscillators, note on some experiments with (R)..... 482
Heusler alloys, the irreversibility of the (R)..... 757
High-efficiency currents for insomnia (E)..... 335
Higher standard of direct-current operation, a new, by Frank J. Sprague.. 968
Higher voltages for direct-current railway operation (E)..... 963
High-potential electrical discharges, means for producing (P)*..... 792
High-power gas engines in electric power plants of German ironworks, by Frank C. Perkins*..... 7
High-power surges in electric distributing systems of great magnitude, by Charles Proteus Steinmetz..... 87
High-speed railroading (E)..... 2
High-tension instrument, a simple (E). 223
High-tension insulating materials, the testing of (R)..... 554
Horn lightning arrester, a new type of. 430
"Horn" lightning arrester, the..... 280
Hotel Gotham, the mechanical equipment of the*..... 885
Household, electricity in the (E)..... 617
Hydraulic plant of Bournillon, France, the, by C. L. Durand*..... 431
Hydraulic station on the Sioule river, for supplying the town of Clermont-Ferrand, France, by C. L. Durand* 933
Hydroelectric installation in southern Asia, the largest, by A. C. Hobble* 583, 621, 657, 693
Hydroelectric plant of the city of Austria, by Franz Koester*..... 342
Hydroelectric plant on the Spring river, Kansas*..... 785
Hydroelectric plant at Beznau, the, by C. L. Durand*..... 277
Hydroelectric power plant of the Nevada Power, Mining and Milling Company..... 983
Hydroelectric station at Niagara Falls, the largest (E)..... 78

I

Iceland, the submarine cable to..... 382
Illuminating engineering (E)..... 297
Illumination, to promote proper (E). 999
Illumination of subway stations, the, by E. Leavenworth Elliott*..... 303
Illumination of the subway stations, the..... 707
Incandescent lamps, comparative tests of..... 940
Incandescent lamps, notes on the selection of (R)..... 712
Incandescent lamp patent decision..... 692
Incandescent lamp ratings..... 670
Incandescent lamps, the rating of..... 829
Incandescent lamps, the thermodynamics of (E)..... 496
Inconvenient power plant layouts (E) 460
Independent telephone associations, to meet officers of..... 480
Independent telephone lines of Ohio, a preliminary map of the*..... 833
Independent telephone men of West Virginia..... 992
Independent telephone systems, maps of the 597, 700
Independent telephone systems in Indiana..... 833
Index for volume 47, the (E)..... 999
India, electrical power in (E)..... 568
India, electric light plant in..... 451
India, notes on recent electrical progress in..... 507
India-rubber, the future supply of (R) 282
Indiana, independent telephone systems in..... 833
Indiana traction lines almost double in value during past year..... 287
Indicating instruments, reading error of (R)..... 912
Influence of the electrolyte on the operation of the aluminum rectifier, the (R)..... 356
Induction, standard of mutual (R).... 1022
Induction generator, the (E)..... 114
Induction motor as generator, notes on the, by T. P. E. Butt..... 245
Induction motors for constant speeds. 323
Induction motors, measurements of the slip of (R)..... 555
Induction motors, the starting of (R) 172
Industrial advertising managers dine. 946
Industrial development, water power as a factor in (E)..... 459
Industrial engineering, the realization of ideals in, by H. F. J. Porter.... 890
INDUSTRIAL SECTION.
Advertising engineers..... 288
Air-cooled Duntley electric drills. C. P. T. Co.*..... 715

INDUSTRIAL SECTION—*Continued.*
Allis-Chalmers Company, new works of..... 65
Allis-Chalmers Company's report.. 450
Allis-Chalmers steam turbine, the* 951
Alternators, a new line of belt-driven. N. E. Co.*..... 798
Aluminum reflectors. A. E. & N. Mfg. Co.*..... 763
American dynamos in an Oriental printing house. C. W. Co.*.....361
Appleton specialties, some. A. E. Co.*..... 1026
Arc lamp, a new type of. W. E. Co.*..... 404
Arc lamps, standard and miniature. A. A. L. Co.*..... 556
Arc lighting, series alternating-current system of. F. W. E. W.*.. 412
Atwater Kent meter, new. A. K. Mfg. W.*..... 800
Automatic belt-tightening idler. C. W. Co.*..... 605
Automatic clutch, an. A. E. Co.*. 286
Automatic exchange telephones interior. C. T. & E. Co..... 559
Automatic motorless flasher, an. A. M. Co.*..... 643
Automatic switchless telephone, a new. De V. T. Mfg. Co.*..... 834
Automatic telephone apparatus, important installations of. A. E. Co. 143

Wilgus, W. J. (Supplement)
Young, Alden M. (Supplement)
Postal, telegraphic and railway systems of Korea 92
Postal Telegraph-Cable Company, the development of the, by Charles P. Bruch* 400
Power at Niagara rapids 397
Power, a wonderful source of (E) 772
Power company in Yorkshire, England, a large 479
Power engineering, influence of electricity on 775
Power for mining purposes, electric (E) 771
Power-plant design and economics (R) 756
Power plant for United States Capitol, Congressional Library and Congressional office buildings, new 736
Power supply for London, electric 908
Power station load-factor as a factor in the cost of operation, the, by Lawrence P. Crecelius* 588
Power-station problems and development (E) 616
Power station, the, by Fred N. Bushnell* 627
Power transmission by direct currents (E) 569
Power transmission in British Columbia 205
Power transmission on a magnificent scale (E) 964
Practical standards for electrical measurements 472
Prevention of overhead accidents, the (R) 356
Printing telegraph apparatus, Siemens & Halske (R) 602
Production of radium from uranium 383
Prominent electrical men join forces 860
Properties of iron-nickel, manganese-carbon alloys* 860
Properties of magnets made of hardened cast iron, by B. O. Pierce 93
Protection of electrical installations against extra-pressure rises (R) 62
Public ownership in Manchester 205
Public telegraph service, essential features of, by J. C. Barclay 385
Purchaser, a point for the (E) 223
Pure magnesia a non-conductor at high temperatures 594

Q

Quadrant electrometer as used for measuring current, the (R) 639
Quadruplex telegraphy (P)* 637
Quantities, general rational and real dimensions of magnetic and electric (R) 402

R

Radiators in wireless telegraphy, earthed and unearthed (R) 794
Radioactive elements, the ultimate disintegration products of the (R) 638
Radioactivity, evolution and (E) 333
Radioactive material, a new 59
Radioactive substance in the world, the (E) 651
Radioactivity, the electrical nature of matter and (E) 375
Radioactivity, the electrical nature of matter and, by Harry C. Jones 378, 426, 462, 498, 534, 570, 618, 654, 690, 726, 774, 810, 846, 882, 930, 966, 1002
Radium as the possible source of the sun's energy (E) 425
Radium from uranium, production of 383
Radium on the strength of thread, the effect of (R) 402
Radium the source of the sun's energy, by G. H. Darwin 439
Railroading at New York city, electric (E) 724
Railroading, high-speed (E) 2
Railroad men, noon-hour opportunities for 792
Railroad officials' day at Manhattan Beach 204
Railway, Atlanta Northern* 440
Railway between Belgium and Germany 247
Railways, a new device for 664
Railway system adopted by the New York, New Haven & Hartford Railroad Company, the Westinghouse single-phase 521
Railway system selected by the New Haven road adapted to the New York Central's terminus, is the (E) 652
Railway system, successful starting of gas-engine-driven single-phase 691
Railway work, the electric motor in (E) 377
Rapid transit in great cities, by William Barclay Parsons 237
Rare earths, the uses of the (R) 912
Ratchet, worm-gear (P)* 281
Ratio between thickness and dielectric strength of high-tension insulating materials, the (R) 675
Reactance coils with rotary converters to give a drooping characteristic, the use of (R) 319
Receiver, combination telephone (P)* 637
Reciprocating tool, electrically actuated (P)* 445
Refining, silver electrolytic 470
Reflector, the diffusing, by E. L. Zalinski* 697
Refrigeration, electrical (E) 809
Refuse destructors (E) 929
Regenerative control of electric tram cars (R) 795
Regenerative control system for electric cars, a 302
Rejuvenated Sons of Jove, the 783
Relation of the central station to the motor-driven refrigerating machine, the, by G. W. Goddard 728
Repeater, telephone (P)* 481
Report of committee on the Engineering Building* 945
Report of Leeds municipal electric plant 44

Report of the commission on electric lighting for the city of New York, the, (E) ... 845
Report of the Western Union Telegraph Company, the annual ... 636
Report on telephone and telegraph development in Australia ... 943
Residential lighting and power plant, a model ... 681
Residual electromotive force of the carbon arc, the ... 398
Resuscitation from electric shock (E) ... 298
Review of the telegraph and telephone industries ... 898
Rœntgen rays, absorption of (E) ... 298
Rosette, electrical (P)* ... 673
Rotating cathode for the estimation of cadmium taken as a chloride, the use of the (R) ... 756
Royal commission on London traffic, report of the ... 382
Rubber-covered wire, report of committee No. 13 on, by Azel Ames, Jr., chairman ... 662
Rubber cultivation (E) ... 151
Rubber-growing in Ceylon (R) ... 482

S

Sabin, the death of John I ... 581
Sale of the United States Light and Heating Company ... 324
Salvage work, the electric motor in (E) 687
